

PRESS RELEASE

## ARVAL CAR SHARING GIVES A NEW DIMENSION TO THE POOL CAR

With Arval Car Sharing, the leasing company Arval offers businesses the opportunity to make one or multiple vehicles available to their employees. With this new product, Arval is giving the pool car concept a whole new dimension. Corporate car sharing now happens via an intelligent online platform and an innovative app. Key handovers are no longer necessary, as users unlock, start and lock their vehicles via the Arval Car Sharing app.

Arval Car Sharing is a great example of intelligent sharing and flexible, sustainable mobility. The employer makes vehicles available and determines which employee(s) can use them.

### Intuitive reservations

Reserving an Arval Car Sharing vehicle is child's play, anywhere and anytime. There is both an intuitive online reservation system and a free Arval Car Sharing app for Android and iOS, so reservations can be made in a matter of seconds from your PC or smartphone.

You can unlock, start and lock the vehicle via the Arval Car Sharing smartphone app, which means key handovers are a thing of the past. And if you don't have a smartphone, Arval will provide you with a chip card. Thanks to this innovative technology, Arval is the first leasing company to offer keyless pool cars.

### Simplified administration

The Arval Car Sharing app also plays a crucial role in keeping your records accurate and up to date. Mileage and fuel consumption are automatically recorded after every journey. And if there is any damage, the user involved can report it quickly and accurately via the app.

The online dashboard offers the fleet manager a clear overview of the status of their Arval Car Sharing fleet. Who are the users? Which vehicles are available? They also receive a clear report showing mileages, fuel consumption and any damage.

Each Arval Car Sharing vehicle is leased for 12 months at a low fixed monthly cost, and you pay per kilometer travelled. At the same time, you get unlimited access to the vehicle, the online platform and the mobile app.

If your fleet already contains pool cars, these can also be equipped with the Arval Car Sharing technology.

### About Arval

Arval was established in 1989 and is a 100%-owned subsidiary of BNP Paribas specialising in the long-term leasing of company cars. Arval offers its customers – professionals, SMEs and large international companies – tailored solutions that optimise their employees' mobility and outsource the risks associated with fleet management. Arval's brand promise is based on expert advice and high-quality service, which are delivered in 26 countries by more than 4,000 employees, as well as in 14 other countries by its partner network. As of December 2014, Arval's fleet contained 930,000 vehicles across the world. Arval is integrated into the Retail Banking department at BNP Paribas.
